

# SEAMLESSWEB BUSINESS SOLUTIONS

Streamlined Food Ordering and Billing Management

THE SMART WAY  
TO EAT AT WORK

SeamlessWeb is a powerful business tool for automating the entire process of ordering food to the office. Our comprehensive Web-based system gives your employees easy access to the best restaurants, caterers and other providers – including your in-house dining facility – while providing your company with a single electronic invoice for all purchases. Our technologies empower companies with budget controls and reporting tools, so your business rules and restrictions are effectively observed by employees and efficiently managed by administrators.

SeamlessWeb automates all purchasing processes, so companies enjoy greater control while providing a valuable perk that employees love. Best of all, SeamlessWeb is an Internet-based system, so there is no software to install or dedicated technology resources required to use the service.

## Feature and benefits

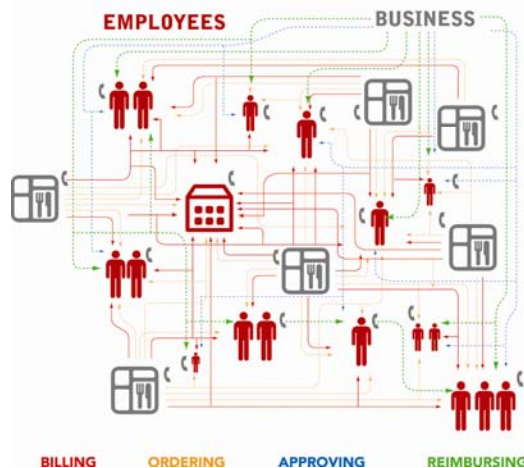

SeamlessWeb Business Solutions helps you and your company:

- **Simplify accounting.** Receive a single electronic invoice for all employee food orders, regardless of the provider. Download invoices directly into your accounting system.
- **Improve control.** Implement rules to enforce budget guidelines and controls; e.g., certain employees may order up to \$25 worth of food, while others may order only up to \$15.
- **Enhance reporting.** Run reports to track food spending and overtime expenses more effectively.
- **Slash administrative costs.** Eliminate reimbursement processes for food while optimizing the profitability of your in-house dining facility (where applicable).
- **Tighten security.** Improve office and employee security by centralizing food ordering and using only building-approved/insured vendors (if desired).
- **Broaden employees' dining options.** Order online – quickly and easily – from all of the same caterers and restaurants you currently use, and hundreds more (including many that offer discounted menu pricing available only through SeamlessWeb).

## The Perfect Solution

SeamlessWeb has solutions for companies that:

- ▣ Allocate the cost of food orders to clients, projects, deals, and departments
- ▣ Have employees that order food to the office
- ▣ Pay for employees overtime meals and working lunches
- ▣ Order catering for meetings and special events
- ▣ Place a daily group lunch order
- ▣ Purchase cakes, flowers, gifts, and other items for special office events and celebrations
- ▣ Buy pantry items regularly, such as milk, coffee, and other staples
- ▣ Wish to enforce business rules on purchases from local vendors
- ▣ Seek to enhance workplace productivity
- ▣ Look to expand dining options for employees
- ▣ Work to optimize the profitability of an in-house dining facility

## About SeamlessWeb

SeamlessWeb Professional Solutions, Inc. provides companies and individuals with a Web-based service for ordering from restaurants, caterers, florists, gift-basket purveyors, and other local vendors. For companies, **SeamlessWeb Business Solutions** streamlines billing and reimbursement processes, enhances expense control, and reduces administrative overhead, helping businesses cut costs by up to 30% annually. For individuals, **SeamlessWeb At Home** provides a simple, hassle-free way to order online quickly and conveniently from all of the best local delivery restaurants. SeamlessWeb's corporate clients include 11 of the nation's 12 largest investment banks, over 80 of the AmLaw 100 law firms, and hundreds of businesses in dozens of industries. The company was recently named the fastest-growing privately held Internet services company in North America by Deloitte & Touche (Deloitte Fast 500, November, 2005). SeamlessWeb serves markets throughout the U.S.
